

Len Henriksson Award 2010

nomination form

The Len Henriksson Award is given to a Faculty of Commerce professor who fosters an engaging, dynamic learning environment, both inside and outside the classroom. Immersed in academic and extracurricular student initiatives, nominees for this award are always providing advice and support to others.

A catalyst to student success and a constant symbol of faculty involvement, nominees go above and beyond their teaching obligations. The winner of this award is someone who guides, and more importantly, inspires.

This award differs from the Teaching Excellence Award, in that it considers a professor's extracurricular involvement, in addition to teaching ability.
